

Project Censored's State of the Free Press 2024

Book Launch!

Featuring North Central faculty & students who contributed to the book.

Project Censored's yearbook *State of the Free Press 2024* (Seven Stories Press) examines the most important but underreported news stories of 2022-23. These stories expose the corporate news media's biases and omissions while underscoring the crucial role played by independent journalists in providing the kind of news and information necessary for a vibrant democracy. The book also examines this year's lowlights in "junk food news" and "news abuse"—revealing how corporate media often entertain rather than inform.

Join us for a series of short presentations about the stories spotlighted in this year's book delivered by Dr. Steve Macek, Dr. Amy Buxbaum and North Central students and alumni.

Refreshments will be served and copies of the book will be available for purchase.
